

RG104 Entry 1

January – December 1832

General Correspondence

Documents are in rough chronological order but not otherwise organized. Many items relate to construction of the new Philadelphia Mint.

Some documents might duplicate or correlate with those in RG104 Entries 214, 215 and 216 but no specific identification has been attempted.

Items of Interest List – E-1 Jan-Dec 1832
will be found on pages 377-379.

for extending the Mint Establishment
\$ 750
500 Dwyer Bank at 1-25

Received January 28th 1882 of
Samuel Moore Director of the United
States Mint Seven hundred and fifty
dollars being the amount of this bill

Robert O. Craig

\$750-

Philadelphia January 16th 1832

Dear Sir,

I have just received an application for my lot of land joining the Mint (104 feet on Broad) and 100 feet deep to the Mint Lot, now I am of opinion that the situation is most eligible for the erection of a house for the residence of the Superintendent of that Establishment. His residence here must in my opinion tend much to its security and interest, by having at all times most convenient access to the self acquiescence, and if the house was built in conformity would be a valuable acquisition. In fine I consider it an opportunity which most likely will not be had again, I think the United States ought to be possessed of it. I shall be called on in two or three days to give an answer, should these suggestions be in accordance with your opinion I shall be glad to have an interview with you on the subject.

Very respectfully, Your friend & servant

Samuel Moore Esq

to State, appropriation for extending the
Mint Establishment or
to George Miley
to Boston, from Gads to the new building
in chosen that S 12

Phil a January 19th 1882

Rev. Jan. 21. 1882 from Samuel Moore
Director of the Mint to the U.S. Com. for looking
for the definite location under the appropriation for
extending the Mint Establishment as per the
above Bill
S 12

Encl.

George Miley

in the return for the 2^d Quarter, it was stated at ¹⁸⁴⁷ \$1184.90
showing thus an appearance of \$18.51 under credit. The latter
statement however was true the former was incorrect ~~and~~
~~the statement should have been~~ ^{notified} a discrepancy. ~~and~~
The explanation has hitherto unfortunately been omitted.

The error ~~consists~~ ^{is} in undercharge against the U. States
in the return of the 1st Quarter, of \$18.51 in the credit of
the Treasury of copper above attached to. It is charged to
the U. States as having lost including ~~of~~ charges
paid here \$6046.88, whereas the lost including these
charges was \$6065.49. This error arose, as I have ascertained
in the following manner. A balance ~~was~~ ^{for as stated} due on the
Books of the Trust of \$18.51 from previous transactions and
it was ~~proposed~~ ^{proposed} to liquidate this on the occasion referred
to by remitting 10 much ^{less than} the amt. of his previous viz
\$5890.26 instead of \$6008.87. This was done, but und-
oubtedly, in charging to the U. States the amt. of the cost of this
Treasury, the same actually remitted to Mr. Baileys ^{it appears} was ascertained
as the first cost of the Treasury. The U. States were ~~thereby~~ ^{thereby} charged
\$18.51 too low and thus the balance due from the
Treasury of the Trust at the close of the Quarter ~~appeared~~
to be \$1203.57, instead of \$1184.90 ~~the~~ which was the true
balance on the 31st March, and was ~~sent~~ ^{sent} to the credit
of the U. States in the ^{opening of the} ~~return~~ for the next Quarter.

2^d

Now Given this trouble and if the explanation
performs I shall regret ^{with} ~~any~~ satisfaction, ~~that~~ ^{that} I have left
to the credit of the Treasury of the Trust the suspended item
of \$6046.88 and also make had a correction of the
previous amount as will have the effect to cancel the
~~\$18.51~~ error alluded to of \$18.51.

Very respectfully

Yours B. L.

Treasury Department,
Comptroller's Office,
27. January, 1832.

Sir,

Your account of disbursements for extending
the building for the Mint establishment, during the 4th
Quarter of the present year, has been audited at the
Treasury, and a balance of \$4,410. 23/100 found due
to the United States from you.

Balance per account rendered, \$4,410. 23/100

Add.

Fractions of Cents, rejected last settlement, 12

As above. \$4,410. 33

Respectfully,

Jos. Anderson
Comptroller

Samuel Morse, Esq.
Director of the Mint

Columbia College New York
30th January 1832

Dear Sir,

I was not aware until I received your letter that Mr Edgells bill was still unsettled. I immediately saw the President who had attended to obtaining an order for its payment by the Treasurer, and had supposed that the latter had remitted the amount. I found however that the latter had supposed it was to be called for by the President or myself. His misunderstanding will amply justify the delay. I received the enclosed check too late for today's mail. I send it as probably equally negotiable with a bank note, and prefer.

Yours Dear Sir

Wm B. Hoof

Laurens

To J. Moore Esq

Sir

Treasury Department

Auditors Office Feb. 3. 1832

Your letter of the 19th ult. on the subject of Copper imported for the Mint was received in due course, and its earlier acknowledgement prevented by circumstances not deemed necessary to enunciate. I have now, therefore, only to say that in consequence of the Documents and explanations furnished by you, the forms suspended from the Credit of the Treasurer on the last Settlement of his Accounts, are restored in an adjustment I have just completed of those for the subsequent Quarter, subject, of course, to revision by the Comptroller.

I have the honor to remain,
Respectfully,
Your obed^t. Serv^t.

A. HARRISON

Samuel Moore Esq.
Director of the Mint
Philadelphia.

Cape

The undersigned is Commissioner of the Board of
Managers of the American Colonization Society. Now the
business of representing to the Trustees of the Treasury that
it is in contemplation by the Board to procure a sum of
money for the colony of Liberia and to make a
return of its cost of labor to the balance
sheet of \$1000 dollars with disbursements appropriate to the
colony.

That towards carrying this object into effect
the Board have looked to the Trust of the ^{United States} ~~Board of the~~
~~United States~~ as the best if not the only competent
agency without incurring an expense beyond the
means of the Board and have flattered themselves
that it might cooperate with the Department and
Commissioners of the Treasury of the Treasury to advance
the necessary work to be done by the Trust including
the preparation of the bills and striking the coins
at an expense limited to that actually incurred.

Under this impression they respectfully request

in attention to the subject and that should be
known it is expedient he will give such instructions
to the Director of the Mint as may facilitate
the execution of this object.

Min't of the U. States
Philad. Feb. 29, 1872

Yours of the 22^d was rec'd this
afternoon - It will not be in our power to
comply, with your views - Copper is ~~very~~ coined
here too, as public demand -

The offer you wish to dispose of
could only be taken at the price ~~very~~ generally paid
now for copper intended for alloy, say 22 cents per
pound. If forwarded to the Mint cut into pieces
of convenient size say equal to about a foot
square it would be wd. at the above price -
This I presume however is not more than you can
obtain for it at home as old copper -

Very respectfully

Yours

Sam. Moore

Abstract from the Treasury Register of Silver Bullion
John S. Mearns 6th

I Samuel Moore Director of the Mint of the United States do hereby certify that the above transcript has been carefully compared by me with the Record of the Treasury to which it relates in the Register of Silver Bullion of the Mint usually called the Treasury Register and that it is in all respects a true copy of said record.

Samuel Moore
Director of the Mint U.S.

Taken & sworn to before me
Feb. 27th 1872
John H. Clark

Dear Sir

enclosed is the application of Mr.
B. L. Alrick for a situation in the mint
he is the person on whose behalf the undersigned
took the liberty of soliciting your kind attention.
Mr. Alrick is a practically frugal man, ~~with~~
~~possessing~~ he appears to have full health and
great activity, we cannot doubt but that you
would find in him a valuable trust worthy
officer, and shall consider it a personal favor
if you will engage his services very respectfully,
Feb 23rd 1832

Doctor Saml Moore

your most H^{ble}
Disc^{le} Henry

Matthew L. Bevan
" " "

Mr Alrick is a Book binder and
now engaged in Golding.

Sir!

Your two letters of 25th inst have been received.

In the event of the Post Office declining to send the Medals by mail, you will be pleased to forward them - directed to the Secretary of War - by the first private conveyance, or by the regular line of Steam Boats, taking the receipt of the Capt. therefor. -

With great respect
Your humble servt.
Olbert Herring

July 18th 1832

To

Sam^l Moore Esq

Director of the U S Mint,

Sir,

I have the honor to state, that on the 8th of December last a letter from S S Hamilton Esq of this Office was addressed to yourself relative to Medals which had been ordered by this Department. The delay in forwarding them to this place has been the cause of some dissatisfaction. They have been several times written for, and have been much wanted -

Have the kindness to read the enclosed letter, and have three Medals of the largest size packed up and delivered to Gen^l Pratt with the letter directed to him. If there should be none of the largest size yet completed, deliver them of the next size - and be pleased to transmit to this place the residue of the Medals soon as possible -

With great respect
Your humble servant
Edw^d Herring

J
P

Minut of the United States
Philadelphia Feb 22. 1832

Your letter of the 16th. was rec^d. yesterday. In regard
to the Models therein referred to I have to state - that four weeks
since Mr. Eckfeldt by a violent injury to one of his ^{lower} limbs
& a severe fall which for some days threatened any laboring con-
sequences has been disabled from paying the ~~desired~~ ^{expected} attention to
the execution of them. In order to ~~accomplish the wish of the Penn.~~
~~capitulate their convention~~ ^{and} he had employed a person to assist him conformably to
my intimation in a letter of ~~the 30th~~ 30th. Nov. last addressed
to S. P. Hamilton Esq. and had nearly completed those of
the D. & D. since when the injury above mentioned occurred. Our
entire ^{superficial} ~~attention~~ of his progress was throughout unavailing
until very lately. Mr. Eckfeldt was now weaker with pain and
difficulty. He has resumed however his attention to the Models
and has now all of the 2^d and 3^d. ^{ready in preparation} ~~sent ready to be forwarded.~~
One box of the latter containing 24 Models will reach you by
the present Mail, & a proportion of them ^{Wm. E. Garrison} ~~sent~~ ^{who will}
they are ^{all} ~~sent~~ ^{delivered}.

None of the 1st series are yet finished but I
am not without hope that a few may be ready before ~~Genl~~
Genl. Prattle will leave this so that the three expected to be placed
in his ~~box~~ ^{bag} may be delivered to him. I proposed in regard
to ~~Genl. Prattle~~ ^{Genl. Prattle} ~~receiving~~ ^{receiving} immediately after receiving your letter

and learned that he is now in N. York but expected back
in a day or two & to remain a few days on his return. His un-
derstanding by his friends that the Yellow Stone River will not ~~second~~
~~be~~ ^{depart before} ~~be~~ under St. Louis. I will make this more certain for
himself, when he comes and if it ~~should~~ ^{seems} ~~should~~ appear advisable
to embrace any opportunity, earlier than his departure for trans-
mitting the Models it shall be done taking the first line of
instructions if not the second. The Models of the first line
I hope Mr. Eschscholtz will be able to complete without
any further interruption except from his ordinary duties.

Edw. H. H. H.
Oct 1st 1822
May 22 1822

Wm. of the United States
Palace Feb. 23, 1832

Dear Sir

I forward by this Mail a communication to
~~the Secretary of the Treasury~~, on the subject of an additional
appropriation for the completion of the New Mint, of which
I forward you a copy. It had been my wish to make this
application sooner, but ~~it~~ ^{it} was not in my power to get
the various ~~business~~ ^{data} ~~of the~~ ^{into} fully into possession, ^{earlier},
so as to enable ^{me} ~~you~~ to estimate how much would be
allotable to finish the whole work.

If it should be found expedient to effect
the object by an ~~act~~ ^{General} ~~of the~~ ^{appropriation}
~~bill~~, it is probable that this, from the progress of that
bill, ^{will} have to be done in Senate. Will you please to
confer with the ~~Secretary~~ ^{Secretary} of the Treasury on the whole subject,
and confer with others as you may deem necessary, and advise
me if any further measure is requisite on my part. I must
ask, may I say, to rely very much on you in this matter.

I write a few lines to Mr. W. L. Garrison, with whom
however I have not the satisfaction of that acquaintance that gives
me any particular claim to his consideration in this ^{regard} ~~subject~~.

Lu -

Minist of the U. States

Phila. Feb. 27. 1892

According to my letter of yesterday a Box
containing 24 Medals was sent to the Post Office by
Mr. Schuchat, but most unexpectedly returned to the
Mint from some misapprehension I ^{presume} ~~thought~~ of the
Attending Officer as to the propriety under the ^{Post Office} Laws
of knowing packages of that description to be conveyed
by the Mail - On calling at the Office this morning I
rec'd a message that ^{this} box is ^{now} ~~is~~ packed so in the following
mail - I write merely ^{to explain} ~~to explain~~ the further ~~the~~ Medals
have hitherto been thus sent ~~in a single package~~ of them
at a time & I hope there will in this instance be no
further difficulties - ~~if the~~ ~~idea~~ ~~is~~ ~~now~~ ~~by~~ ~~will~~
~~find a package~~ ~~directly~~ ~~sent~~ ~~for~~ ~~the~~ ~~same~~
~~for~~ ~~the~~ ~~same~~ Carl Pratta has returned ^{from N. York} ~~from N. York~~ ^{and will remain}
for a few days here - ^{the} ~~the~~ Medals of the latest size
I ^{believe} ~~will~~ ^{will} be ready ~~for~~ ^{before} his departure -

Launceston March 19. 1832.

Dr. Moore

Dear Sir?

The object of the present is to make enquiry as to ~~whether you can be~~ supplied with the Copper for coming ^{being ourselves} Manufacturers of Copper in all its varieties, and thinking your board of Directors will be disposed to encourage domestic industry, we wish to contract for the future supply of this metal, provided you can hold out to us a sufficient inducement.

We have supplied most of the Copper which has been used for our Navy, the last few years which has been highly approved.

Will you inform us, on what terms you are now supplied with the article from England, the amount consumed annually, and whether you would be disposed to contract with us for what may be wanted in future, provided we can furnish the same of a quality equal to that imported?

An early reply will

oblige

Dear Sir

Dr Sir

Let a Citizen call your attention to the following. Some who often experience a considerable inconvenience in his dealings for want of Change

We now want Ten Cent pieces, the Fives are not much wanted because we have a very large amount of the Copper Coinage, and Five Cents or even 7 or 8 Cents no one objects to take in Change, in Copper; to oblige the public do please make an Effort to give a large amount this year in 10 Cent pieces

th
April 9. 1832

entirely satisfactory. This however it is presumed would
present no ^{objection} difficulty as there would be expense for the two
hundred experiments necessary to determine the expediency of
making a contract in the case -

It would be very satisfactory to be able to obtain
from Establisshments within the U States, the services of our
letter carriers, and all propositions hitherto made having
this object in view have been entertained ~~and~~ with a view
favorable to their success. ~~But the direction given is~~
~~to have no objection~~ and to submit to the conditions
that no disadvantage to the Public should ~~be~~
incurred therefrom.

Should it appear ^{to you} that the Public would want
a proper equivalent for the cost and charges to be incurred,
I would ~~be~~ recommend the preparation of a small gaz-
ette for trial, say a few hundred papers, in order to deter-
mine the fitness of the article for service in the various
particulars above ^{mentioned} ~~stated~~

any further ^{inquiries} ~~information~~ will be ^{carefully} ~~promptly~~
~~attended to~~ ^{you} and if any person can kindly
show him the Office the Chief Clerk Mr. E. J. Sedgwick
will further ^{with explanations} ~~offer~~ suggestions that may be considered useful
~~to the public~~

Very respectfully

Yours &c

John Moore

Ch
R

Minst of the Hunter State
Philad - April 10 1842

Had the honor to address you briefly 3
days in regard to the coming of some to serve in the office of ~~Inspector~~
of the Mount by the resignation of Mr. Richardson and now by
have very respectfully to present for consideration the name of a person
more deserving gratification of no less an order for the place
in question.

The person alluded to is William W. Keating
of this City - a gentleman liberally educated and whose views
have been directed in an ^{original} manner to the pursuits of
Mineralogy and Metallurgy. For the purpose of completing
his collegiate studies he visited Paris to improve himself by
the ~~in~~ instruction afforded at the school of Mines in that
City. He has since spent about three years in Mexico in the
service of a Mining Company then contemplating an established
mine there. His character in all particulars and his habit of
application add to his attainments in science and
in the arts allied to the progress of the Mexican Government
afford a satisfactory assurance that the trust would be well placed
in his hands. The general estimation moreover in which he is held
in the community would seem purchased under his appointment
gratifying to the public. His acquaintance with the French Spanish
languages it may be added is not unworthy of regard with a
view to the Italian establishments.

Now to report however that as the permit was
sent it is not in my power to say absolutely that Mr Keating
would accept the office if trusted to him. This not as I have

board ~~now~~ in the city nor within reach of being constructed and
on account returned in life there about ten days. My impression is however
that he would accept. I have written to him in regard to it and
~~that~~ ~~he~~ may respectfully request that time may be allowed to visit
Mr. Keating's views previously to any other movement on the subject

Since the Fall of the present year I have operated with Mr. Richardson as a partner & agent ~~and~~ have engaged him of the Chief Miner of the District. He had been for about two years previously occupied with the prospect of separating gold and silver in which he witnessed much weakness and judgment as to under it manifest that he would eventually acquire a knowledge of the art of separating. He has accordingly become very expert and competent in this process and will be able to conduct the operations during the interval should there be one between the retirement of Mr. Richardson and the period when his successor will be able to assume the care of the Office. The experience thus acquired by young Mr. Cutshall ~~and~~ combined with highly correct principles and a habit of intense application issues very happily in and of the Restoration under ~~the~~ present circumstances.

The President did me the honor to appoint Mr. Richardson
on my recommendation as successor to his father whom he had for
seven years of office in the office. The son has fulfilled all my ex-
pectations and would continue to render ~~the~~ to the United States the
benefit of his services but that his health is found to be impaired
by the constant application required. In presenting any name to the
consideration of the President for this office I shall have steadily in view
the delicacy & responsibility of the trust. The people of the Union is of greater
importance than the success of its results depend essentially the purity of
our language and the fidelity of the Constitution at once to the reputation
of truth and to the Government. I have the honor to be

Genl. Louis M. Lane

Copy

West of the United States
April 16. 1832

On the 15th. instant I had the honor to address
you in regard to the appointment of a successor to Mr. Richardson
Lepage of the West, presenting for the consideration of the President the
name of Mr. Keating with a view to that office.

By a letter rec'd from Mr. Keating I have been considerably
satisfied that he desires presenting his name to be presented on the occasion,
other engagements permitting his acceptance of the office if tendered to him.
I would now therefore very respectfully propose the name of Jacob P. Culbertson
for the appointment whom experience in the duties of the place and the
general estimation of his character I had occasion to mention in the communi-
cation referred to.

The inconsistency of young Mr. Culbertson's father being the
chief officer of the West may happily be considered as enhancing the
appointment liable to some remark and this I must acknowledge has
its weight in inducing me to further recommending him in the
first instance for the place. I must now however submit that this con-
sideration in a case of so much concern to this Institution may in
the present instance be waived. There is indeed no incompatibility
arising from the relation of the two offices to each other which should
forbid the appointment. Very few persons I beg leave to remark
whose order ~~and~~ and habits of mind peculiarly recommend
them for such a trust have made private of their character an object
of attention. The circle from which a fit selection is to be made is
therefore very limited.

The appointment of Mr. Keating if accepted would
however be very useful to the Institution and on this consideration
I felt anxious first to ascertain his views before offering himself
to the Station of the President. The name now ~~is~~ proposed.
In this decision I had the entire acquiescence of young Mr. Culbertson.

His father and Mrs. Bland the Master and ~~Professor~~ of the Mint
together with Mr. Richardson also actively connected ~~with~~ with me
in this—Officers consistently qualified to estimate the importance of
the trust and capable of postponing their private feelings to public
regards in such a case.

Under these circumstances I would therefore earnestly
recommend Jacob R. Sargent to the confidence of the President
and solicit his appointment as Assayer of the Mint.

Permit me very respectfully to request that you
will bear the goodness to give to this recommendation
your favorable regard.

I have the honor to be
very respectfully

Dear Sir

It is understood that the
Appointment of Jacob P. Cook as Agent
of the Mint was confirmed some days since.
No Court has yet been ^{for some} held, nor any ^{official} ^{after some}
determination of the Appointment - ~~we shall be able~~ ^{as Mr. Richardson} ~~to state you the day then~~
without any regular Agency - Will you be
so good as to report, in the proper quarter,
that the Court may be expedited.

Yours with esteem

J. A. Moore

Bank of Geneva
May 10. 1832.

Samuel Moore Esq.
Dear Sir

I wish to procure from the Bank
of the United States. One Thousand Dollars in notes
for the use of this Institution. Please say if they
can be had, and be delivered at this place free of
Expense to this Bank, as heretofore, and be forwarded
immediately, as we are in want of them.

If they can be had, I will immediately enclose
to you if you so direct, my draft on New York for the
amt. say One Thousand Dollars.

Please say if a part of the amt. say 50. or 100 dollars
could be sent to us in 5. and 10 cent pieces, which would
be a very great accommodation to us.

An early reply will much oblige

Yours Obedt. Servt

C. A. Cook
Clerk

New York 10th May 1832

Samuel Moore Esq^r
Director of the U. S. Mint
Philadelphia

We acknowledge the receipt of the U. S. Treasury
Note for a bar of gold weighing 17¹/₂ lbs for which
please return us a Certificate.

Said bar is valued & has been insured by the
Director of the U. S. M. for \$400. & as you will
perceive by his receipt.

Respectfully

Yours most obed^t
Chas. Johnson

Col. College Mr York 21 May 1832

Dear Sir,

I beg leave to enquire of your what progress
has been made in the execution of our medals, the time is now
fast approaching when they will be needed. It has occurred
to our President that there will be greater chance of having
them ready in time to have them sent on without waiting for
the engraving. That may be done after their delivery and at
his own. No difficulty will occur in having it executed here on
the gold & silver, nor if the third class be, as Mr Keap intimated
they would, of real bronze with that class.

I am D^r

Wm B. Lusk

Jas Fenwick

To J. Moore Esq

Receipt

102

Mint of the United States
Philad^a Feb^y 20, 1832

I have devoted for some time past much attention to enable myself to determine the amount of expenditure yet to be incurred, in finishing the New Mint Edifice, and furnishing it with the requisite machinery, for the purpose of ascertaining conclusively the adequacy of the amount appropriated therefor, or the extent to which it may be found insufficient to accomplish the design heretofore submitted and approved. The result of the enquiry is, that \$17,000, seven thousand dollars, will be required, or very nearly that sum, ^{more or less} to complete the establishment, including the expense of enclosing it by a sufficient guard wall, surmounted by a suitable iron railing. I beg leave therefore respectfully to submit for your consideration the subject of an additional appropriation of the above amount.

The original appropriation of March 2^d 1829 for the extension of the Mint Establishment, was \$120,000. The question whether this extension should be effected on the site of the present Establishment, or by procuring a new one, being left discretionary with the Director subject to the approbation of the President. A new site was, on full consideration, recommended and approved, under a construction of the Law, sanctioned by the President, and indeed obviously within its meaning, that the grounds of the existing Establishment then sold, would be considered applicable to the new structure.

The South section of the Edifice was erected within the year 1829 according to a plan & style submitted to the President and approved, it being then understood that the employment of a material less expensive than Marble, though inferior in durability, or worse as in appearance, should be adopted on the flanks of the building, and in part of the front porch in order that the State expenditure should not exceed the amount destined for the object. It general a wish has however been expressed by all who witnessed the progress of the South section, among whom were many members of Congress, that a similar style of finish should pervade the whole structure, and my own conviction was so decided that this would ultimately meet the approbation of the Government and of the public taste.

Treasury Department

June 14th 1832

Sir,

I understand from Mr. Samuel Richards that he and others are desirous of purchasing the site of the old mint; and, as the new Mint must now be in such a state of forwardness as will admit of its being occupied within a short time, the President directs that you will cause the old mint to be advertised for sale at public auction, and, after sufficient notice, dispose of, to the highest bidder, provided the price offered be, in your opinion, its fair value.

I am respectfully

Yours Obedt Servt

Samuel M. Lane

Attest of the United States

Director *July 1st 1872*

Samuel Moore
Director

Col. College New York
27th July 1832

Dear Sir,

I am happy to see that the mounds are come
Killed, and here to request you to have cases provided
for them as for the last and that they be sent on as soon
as they are ready. Prof^r Cressy then will forward them
of as private opportunity presents itself. The treasurer of
the College has left town, and it will take about three days
to receive an answer from him, and an order for money. I
shall therefore think you instead of drawing upon him as I
did last year that you send me a memorandum of
the cash in the form of a bill of parcels in order that I
may send it on and remit you.

I am Dear Sir

Yrs respectfully

Jas. D. Smith

Rob^t Bell for
W^m T. Bell

Washington - City, 24th August 1852.

Dear Sir,

Mr Deant in the State Department told me you had written to him that you sent the *Sp. lance* that was asked, as it is more dangerous for such things to let them be pushed about in landing than travelling itself. I always find it the safest to get the things, but to be able to do it you would oblige me by sending me a bill of lading or any such notice as could be had and inform me when I could sent and where.

The Balance is intended for the use of my assistant in preparing the weights to a certain proximity before the final adjustment, as you know the water Balances have not such a large range as ⁱⁿ the preliminary operations may be defensible. As I am now again engaged to push on the Coast Survey during summer and shall return here only in Winter again after leaving here shortly, which will, I hope, afford me the pleasure to see you, in passing through Philadelphia, I make the proper arrangements for his work during my absence.

It was because I was informed by Yourself that You
made no use of that balance, as I think indeed for the
larger uses in the mint it was not appropriated, I took the
liberty to request their use of it. The smaller one I
knew was, or at least, could be useful to You & there-
fore I had no idea of robbing You of it. You was
therefore exactly right in Your explanation of Mr
Preston's request.

Your answer will oblige me
Give my best respects to Mr Patterson Your family
and all our Friends,

Yours ably
J. R. Hapler

Day & Rodgers

I have various late results in favor
that the estimate of 793 per ^{of the standard} ~~ounce~~
~~and~~ gives a near approximation to the
value of the silver for mark - allowing 2 $\frac{1}{2}$ cents
to be deducted from the silver for the charge of
separating the gold therein if there be any.

~~From the late results it is~~ ^{unavoidable} ~~that~~
^{known to be the case of various results of them.}
2 $\frac{1}{2}$ cents per grain of the standard for

~~it~~ gold gives us near an approximation
to the ~~value of the gold for the~~
~~standard~~ ^{average} ~~that can~~
~~be given~~ as very intimate that can
be given - but the variations above
and below the tenth in relation to the
amount of gold are very considerable.

~~I estimate the charge~~ ^{the charge} ~~for separating~~
for separating ^{the gold} is to be estimated on the
gold ~~for separating~~, that having been
taken from the silver -

Mr. McRae & Co.

Director of the Mint
Philadelphia*

Dr Samuel Morse

Philad^a Sept 13th 1832

Respected Sir

The United States Mint being near its completion and as I presume you will soon commence operations there, It occurred to me there might be an additional number of persons employed in various capacities there, accordingly I have taken the liberty of offering myself through this medium to your notice as a candidate for any situation in the institution wherein I can render myself useful - That you may form some opinion of my qualifications, it would be as well to state that I was brought up in a mercantile house in this City at the age of 21 I learned the jewellery business which I have to this time made my profession, I have paid some attention to the more particularly that portion of it connected with the metal - With regard to references I can fully satisfy you, for the present however I will mention Dr Bache who has kindly permitted me so to do and conclude by

Subscribing myself
Respectfully yours

Dear Sir,

The object of this is to inform you, that we have now completed the necessary machines for making the copper pieces for coinage.

We purpose sending by early opportunity a small quantity of the planchets as specimens, and have no doubt of our ability to furnish you with an article, equal in every respect to that heretofore used.

We hope to conclude a contract with you before long, to supply the mint, with what copper may be required the coming year.

Very Respectfully,

Yours Obedtly

Edward Megowan

Saml Moore Esqr
Philadelphia

Birmingham October 30 1832

Sir

No doubt the wreck of the *Algonquin* as she was leaving
Liverpool on the 8th instant, will be known to you before this
letter reaches you - We had placed on board that ship the
6 Pair of Kolls ordered by you - In consequence of the disaster
I went to Liverpool, and soon after the Kolls were landed, I
sent them to Birmingham, hoping that they might be perfectly
restored, but on inspection we found that the salt water
had produced too deep a corrosion to be turned out without
lessening the diameter of the Kolls too much, they are therefore
abandoned to the Underwriters, for happily we had effected insur-
ance in London - We regret that some time must now be
lost before we can have the Kolls replaced - We cannot possibly
send them before the pocket of December 8th, and we are
satisfied that they shall be in readiness to go by that opportunity
hope the delay, which indeed is unavoidable, will
prove the smallest inconvenience to you

Soliciting your future command I remain for duty
your obliged servant
W. Harrold

Launton Oct. 30. 1832.

Dr Moore.

Dear Sir -

We send herewith a small piece of copper blankets for your inspection -

Our machines are now in readiness, and we shall be pleased to receive an order for what may be required at the Mint, the coming year.

Any alterations you may suggest can be made. Should the copper be too hard, we can make it softer by annealing.

We are confident that we can supply you with an article equal in all respects if not superior to what you have heretofore used -

We are Sir,

Very Respectfully,

Your Obedt. Servt.

Crocker Brothers & Co

On the 19th. Nov^r. 1829 a deposit of Gold
stated to be from Virginia was made ~~at the bank~~ in
the name of Anthony Hale. When rec^d it was ~~found to be~~
very heavily charged with Quicksilver, a portion of which
having been driven off by heat without melting it was found
to weigh in this State 111 Ounces & ducts. It still however
contained a large proportion of Quicksilver ^{or other extraneous matter} ~~which being~~ ^{separated} by melting the deposit then weighed only 94 Ounces
Which on assaying the same was found to produce 90 Ounces
10 Awt. 12 grains of Standard Gold yielding to the deposit
after deducting the proper charge for refining \$1603.73 by
Hale in the certificate issued on the occasion.

We hereby certify that the above statement of the Gold
and Standard weight of nine bars of Silver Bullion deposited for
assay by Andrew Currier 31 August 1872, is correctly calculated
from the results of the assay, and that the value ~~of said bars~~ ^{of said bars} is
calculated conformably to the report of the assay, and that after
deducting ~~from~~ ^{thereof} the amount \$54.71 for charging a assay the
sum ~~of~~ ^{of} \$11234.30.5 was paid to the owner of the
deposited in full value of said ~~bullion~~ ^{bullion}. The assay having shown
no gold contained therein.

Miner of the U.S.

Sir

Your esteemed favour of 21st Nov^r

was duly received. The result of the examination of the
gold coins left for me is very satisfactory.

I beg leave to return you my thanks for your very

kind attention.

Very respectfully

Yr. ob. Serv^t

J. A. Campbell

D. L. Moore

BMS

Thursday morn.

11th Decr.

Dear Sir,

Messrs. Hollinguer & Co. advertising on the
14th day of April last to account sales of Mexican Dollars
then rendered, say

" you will perceive the high premium (7 p. mille)
" paid on some of them, which is in consequence of
" gold being found in them. They are of a lower fineness
" standard than the Spanish, but these having no gold,
" and means having been lately found of dividing
" gold from silver cheaply, on account of the low
" price of chemical produce (acide sulfurique concentree)
" the quantity melted has been such that the premium
" on pure silver has fallen, and consequently the premium
" of Dollars fell also."

The sale specially referred to was gross

as follows

\$10,000 weighing L. 269,842 at 89 1/2 / 1000	895.69	plus	52805.40
premium 7 p. 1000	369.60		
		plus	53175

I hope the above may furnish you the desired clear details.
Hollinguer mentioned the subject in other parts of their correspondence
they gave us no information more precise than this —
Yours very truly
Wm D

Extract from
Hobbs's general
inspecting & parting
of gold & silver
& value of Mexican
dollars
with calculations
found thereon
inspecting & parting
from the U.S. Mint
in Mexico.

1332

Mex. doll. Kilograms 10 Troy
\$ 10000 weight 269.842 = 723.046
making the average W. of \$ 10000 to be
72.183 Oz. 13 dwts. 2 grains and the
= weight of \$ 10. = 17 dwts 8 $\frac{3}{4}$ grains
comparing my results with
our average results here of the Mexican
dollar of various dates.

The value intrinsic is taken at 195.69 per
Kilogram - by a quotation from
the same House of Dec. 13. 1827 the
dollar of the U.S. is ascertained to
be intrinsically worth ^{from} 144.88 per Kilog.
The ~~proportion~~ ^{proportion} deduced gives the value
of the Mexican doll. in U.S. dollars.
100 cents $4\frac{8}{100}$ Mills, agreeing very well
with our results.

The fineness of the Mexican dollar is stated at 840/1000
that of the doll. of the U.S. in the quotation
before referred to is stated at 890/1000 the
proportions reduced give 23 Troy grains
of pure silver in the former as the difference
between the fineness of the dollars of the
U.S. & that of Mexico - the difference again
at the Mint of the U.S. is 2 1/2 grains.

Sir

Treasury Department
February 6. 1832

I am well perviced by the last paragraph
of the enclosed circular that the Consuls of the United
States have been directed to forward occasionally spe-
cimens of the Coins most in use in the Countries in
which they are respectively accredited, for the pur-
pose of examination, & trial, at the Mint.

I have to request you will inform
me whether measures have ever been taken at the Mint
to obtain Coins for the objects specified. This information
is required, in order that in case no steps should have
been taken - the attention of the Consuls may be again
specially called to the subject by this Department.

Samuel Mone Esq^r
Director of the Mint
Philad^a

I am Very Respectfully
Your Obedient Servant
Louis W. Lane
Secretary of the Treasury
